**Description of Services:** Motivational Services' Division of Developmental Disabilities Services provides residential support services for adults who have developmental disabilities and for adults who have developmental disabilities and mental illness.

Services are designed to meet each person's residential goals either in small one or two person sites with 24:7 staff support or at individual's apartments with non 24 hour support. Residential goal areas may include skill building in housekeeping, transportation, communication and interpersonal relationships, nutrition, health maintenance, medication management, safety practices, finances, problem solving and decision making, involvement in the community, recreation and exploration of meaningful activities including work, education and other interests.
